The County reserves the right to award in whole or in part, by item or group of items, by section or geographic area, or make multiple awards, where such action serves the County's best interest.

The County reserves the right to add additional contractors, at the County's sole discretion, in cases where the currently listed contractors are of an insufficient number or skill-set to satisfy the County's needs or to ensure adequate competition on any project or task order work.

2.0 SCOPE OF SERVICES:

2.1 CONTRACTOR REQUIREMENTS:

Contractor(s) shall supply all labor, supervision, materials, tools, equipment, and all effort necessary required to repair, retrofit, or the replacement of plumbing systems and products used in the residential, commercial, and detention environments.

2.2 RENTED AND OWNED EQUIPMENT:

Machinery/equipment that will be considered as an additional cost and used indirectly to the plumbing industry for the performance of normal plumbing services, such as, but not limited to:

Backhoes
Jackhammers
Concrete cutters

These items (and other approved equipment), if rented from a rental contractor, will be allowed the rental charge plus an administrative mark-up cost not to exceed five percent (5%). If owned, the equipment shall be charged per the bid rate in Attachment A, PRICING.

The six hour response time shall carryover the next working day if called into Contractor's office after 12:00 Noon.

SUNDAY AND HOLIDAY request shall have a four (4) hour maximum response time.

2.5 SERVICE WORK AND PROJECT WORK

2.5.1 Service Work:

Service work shall be defined as repairs that are corrective to restore systems or facilities to fully functioning status. Service work will be billed as time and materials and will be directed to the first call contractor. In the event the first call contractor cannot respond, the service will be directed to second call contractor and so forth until a contractor can respond to the service call. Service work must have a work order assigned and provided at the time service is requested. Invoices for service work must contain a completed service ticket indicating hours worked and parts used. Prices for parts used will be included on the invoice or be made available upon request. For service work, sales taxes shall be imposed on the materials only.

2.5.2 Project Work:

- (A) Project work shall mean scheduled maintenance performed as system upgrades or new installs to facilities. The Contractor assigned to this contract shall meet with the County department and discuss work requirements. The Contractor shall then develop a detailed written scope of work as a project and present such to the requesting department and the FMD security system administrator. If it is estimated that the cost for the project will exceed \$5,000, quotes will be solicited from all contractors assigned this contract.
- (B) Project quote shall be all-inclusive. One price to perform the entire project. That is, any cost overruns to be absorbed by the Contractor, or cost savings to be additional profit. Exceptions to this are change orders requested by the County that incur a higher project cost and longer delays. All change orders to a project must be in writing, referencing the contract serial number, and approved by the FMD security system administrator prior to any authorization to proceed. The Contractor who fails to acquire change orders in writing runs the risk of incurring these additional costs without payment.
- (C) Once submitted, project quotes may not be corrected or withdrawn.
- (D) Contractors shall be compensated for additional work requested that is not detailed in the scope via the labor rates bid in Attachment A, PRICING, or another scope of work.
- (E) Any applicable taxes imposed shall be included in the project quote. Taxes are NOT to be a separate line item.
- (F) Project Ceiling Limits:

Projects that exceed \$150,000.00 shall require pre-approval from the Office of Procurement Services. If an emergency occurs, this price ceiling may be lifted if approved by the Office of Procurement Services Procurement Officer assigned to this contract, otherwise, the project may be separately bid outside of this contract document. This to ensure the County receives adequate competition for such work.

2.6 EMERGENCY CALL-OUT WORK:

Emergencies that arise and must be dealt with immediately without the time for project quotes shall require the first ranked contractor to be notified. Emergencies are usually time and materials. The nature of emergency call-outs is unpredictable as far as the extensiveness of the repairs

needed. Some may be simple repairs, while others can be major. Once the emergency is completed, and yet requires additional labor for total completion, the County may provide the opportunity for all the contractors of record to quote the remaining work as a project.

2.7 PLUMBING PARTS, SUPPLIES, COMPONENTS:

The Contractor shall be responsible for sourcing all plumbing parts/components/fixtures necessary in the repair/replacement of plumbing systems. Exceptions are, if in the best interest of the County, to utilize its own plumbing commodity contracts to source said supplies.

Replacement parts/components/fixtures shall be new OEM (if applicable) and with minimum warranty of ninety (90) days, unless longer warranties are available from manufacturers. All labor for repairs shall have a 90-day warranty.

2.8 DRAIN CLEANERS AND CHEMICALS:

The Contractor shall not use any caustic cleaners, acids, de-scaling solutions, or other chemical agents to clean out any sewer line without authority from FMD staff.

2.9 MECHANICAL CLEARING OF PLUMBING LINES (ROOTERING):

2.9.1 General:

This service to be all-inclusive, that is, the flat rate shall include all materials, tools, equipment, labor, supervision, transportation, trip charges, and travel time for a minimum of two hours. Length of rootering run shall be infinite without additional charges.

The purpose of this service shall be for clearing blockages in sanitary sewer/plumbing lines.

2.9.2 Three Types Of Mechanical Clearing To Be Made Available To The County:

- (A) Hand held (auger) – Shall be included in the plumber service general labor rate
- (B) Electric/mechanical machine (cable) – Separate charge (see below)
- (C) Hydrojet (high pressure) – Separate charge (see below)

2.9.3 Hand Held Auger:

This mechanical service shall be included in the general labor bid price and NOT charged as a separate rootering call. The Contractor shall be required to delineate this type of call on his invoice as “*auger blockage*” or a facsimile thereof.

2.9.4 Electric/Mechanical Machine Rootering:

Electric/mechanical machine usage shall be a flat rate, PER SITE, with a two (2) hour minimum stay. This allows ample time for the plumber to assess the job, remove the machine from the truck, set the machine up and clear the line, and reinstall the machine back onto the truck. If the plugged line happens to be caused from two or more different locations within the same building, the Contractor shall consider this the same service and only one cable rootering charge applied.

If a rootering charge for the electric/mechanical machine is imposed to the County, the plumbing labor rate shall NOT be an additional charge. NO OTHER LABOR CHARGES SHALL BE IMPOSED. NO OTHER LABOR CHARGES ARE ALLOWED ON AN ELECTRIC/MECHANICAL ROOTERING CALL.

After two (2) hours of unsuccessful attempts to clear the blockage, the Contractor must notify County staff and a determination made as to what other alternatives can be used. Should this be the case, the Contractor shall bill the County for the one rootering charge only.

The Contractor shall be required to delineate this type of call on his invoice as “*cable blockage*” or a facsimile thereof.

2.9.5 Hydrojet - High Pressure Machine Rootering:

Hydrojetting shall be flat rate, PER SITE, with a two (2) hour minimum stay. This allows for ample time for the Contractor to assess the job, remove the machine from the truck, unplug the line, and reinstall the machine back onto the truck. If the plumber does not have a hydrojet machine in their vehicle, then the County agency shall call-out a contractor with the lowest rate for hydrojetting based on the time and day.

If the plugged line happens to be caused from two or more different locations with the same building, the Contractor shall consider this one service and only one hydrojet rootering charge applied unless the stay is pre-approved over and above the first two hours. There is a line item price for “each additional hour”.

If a rootering charge for the hydrojet machine is imposed to the County, the plumbing labor rate shall NOT be an additional Charge. NO OTHER LABOR CHARGES SHALL BE IMPOSED. NO OTHER LABOR CHARGES ARE ALLOWED ON A HYDROJET ROOTERING CALL.

The Contractor shall be required to delineate this type of call on his invoice as “*hydrojet - clear line*” or a facsimile thereof.

2.9.6 Charge For Use of Electric/Mechanical and Hydrojet Machines For Same Job:

If electric/mechanical rootering is used and is determined unsuccessful, same call, same day, same site (As explained in §2.9.4 above), and the Contractor’s plumber AND the County staff agrees to utilize the hydrojet, two charges are allowed:

- (A) Charge for electric/mechanical rootering, flat rate and
- (B) Charge for hydrojetting, flat rate.

These two charges must be delineated on the invoice and pre-approval from the County annotated.

2.9.7 Broken Sewer Lines And Damage To Contractor’s Equipment:

The County shall not be held responsible for broken cables or hoses while either cleaning a line or attempting to unclog one, with the exception of structural defects (broken and/or out of alignment sewer lines). In this case, the County will pay for labor to remove broken cables/hoses, but not to repair or the replacement of damaged equipment. A belly in a sewer line is not considered broken/damaged.

2.10 FIRE HYDRANT SERVICE:

The County owns several fire hydrants located on its property. Only Contractors who are licensed with an A-12 Sewer and Drain license shall be permitted to repair or replace hydrants.

2.11 LEAK DETECTION AND CAMERA SERVICES:

2.12 DETENTION FACILITIES:

The Maricopa County Sheriff’s Office (MCSO) does not allow a service contractor access into a Detention Facility to perform any type of service unless a background check has been completed. Exhibit 3, Detention Facilities Security Guidelines, explains all the necessary requirements of contractors performing work at such facilities. If it is anticipated a plumbing contractor who has staff visiting the site on a consistent basis, these forms will be completed by the person requesting facility access and the background check will be completed prior to approving access.

Once the form is filled out and submitted to FMD, the Contractor shall be notified if approved. If approved, a list of the approved names will be given to the Detention Facility where the work is to be performed. Only those on the list will be granted access.

For small jobs lasting only a few days or less, the Facilities Maintenance Officer at the facility will complete the background checks.

A pictured ID is required upon entry and must match the name on the approved access list.

2.13 CLEANUP AFTER A JOB:

The Contractor shall ensure all trash generated by work performed (either repairs or retrofitting) shall be removed from the site. Additionally, the Contractor will ensure all disturbances to the area where the Contractor performed work are restored to the same condition prior to start of the job. Such disturbances may include, but not limited to: loose dirt, dislocated gravel; removed vegetation; footprints; old asphalt/concrete; etc. If an inspection reveals that the Contractor fails to clean up after work has been performed, The County will notify the Contractor of the discrepancy and the Contractor will have twenty-four (24) hours to make the needed correction. Should the Contractor still fail to clean the area, the County reserves the right to make other arrangements to have the area cleaned and the County shall deduct the cost from the Contractor's invoicing.

2.14 MORE THAN ONE PLUMBER AND/OR HELPER:

Repair work for plumbing service shall be performed with the use of one (1) plumber. If needed, Contractor may dispatch a plumber's helper (laborer) to aid the plumber. Any additional plumbers or helpers needed for a SPECIFIC job must be pre-approved by the County using agency's authorized representative. The invoice shall delineate some type of notation that the additional plumber/helper has been pre-approved, for example; *extra plumber pre-approved by 'persons name'*.

2.15 TRIP CHARGES:

Trip charges shall be allowed only to the following sites:

- (a) MCSO Lake Aid Stations
- (b) County offices located in Gila Bend, AZ
- (c) County offices located in Buckeye, AZ

The trip charge shall be imposed as "per occurrence" – not one trip charge to get there and one to leave.

2.16 COMPLIANCE WITH FEDERAL, STATE AND LOCAL SAFETY AND BUILDING CODE REGULATIONS:

2.16.1 All work must comply with EPA, OSHA, and any local regulations in effect at each service occurrence.

2.16.2 Contractor shall adhere to all regulations, rules, ordinances, and standards set by Federal, State, County, and Municipal governments pertaining to safety on the job site. Not only for the Contractor's employees, but also County employees and the public.

All work by Contractor shall be subject to inspection and approval by requesting County agency. All required building permits, if required, shall be obtained and paid by the Contractor, and invoiced without markup to the County.

2.16.4 If the Contractor is found to be not in compliance with said Federal, State, County, and/or Municipal safety rules, ordinances, policy, procedure, or codes, the Contractor may be

placed on suspension until such non-compliant issues are rectified to the satisfaction of the Facilities Management Department. Continued non-compliance shall result in iteration.

2.17 REQUIRED BACKGROUND CHECKS:

2.26 FUEL COST PRICE ADJUSTMENT:

2.26.1 This provision provides for limited increased or decreased costs of motor fuels (fuels) used to perform services under this Contract. This provision does not apply to burner fuel (i.e. propane, natural gas, fuel oil, used motor oil). It applies to motor fuel only. Fuel cost adjustments may be either positive or negative. A positive fuel cost adjustment will result in an increase in payments to Contractor while a negative fuel cost adjustment will result in a decrease in payments to Contractor.

2.26.2 This provision is intended to minimize risk to both parties to this Contract due to fuel cost fluctuations that may occur during the term of this Contract. This provision is not designed to estimate actual quantities of fuel used in providing services under this Contract, but to provide a reasonable basis for calculating a fuel cost adjustment based on average conditions.

2.26.3 Application of this provision will come into effect upon Contractor submittal of a fuel cost adjustment request. A request may be submitted only when the increased cost of fuel, established as a percentage of total contract price (base fuel cost) upon award of this Contract, exceeds ten (10%) percent of the base fuel cost. The Contractor may request a fuel surcharge no more than four (4) times annually, during the month(s) of March, June, September and December. 2.26.4 Contractor shall include, as part of its price bid, the percentage of total contract price fuel represents (e.g., fuel cost equals 10% of Contractor cost) (see also, Attachment A, Vendor Information). This percentage will represent and establish the base fuel cost for this Contract. The base fuel cost shall be established as the due date for submission of proposals for this Contract. All subsequent fuel cost adjustments shall be based upon the date the County approves a Contractor's request for fuel cost adjustment (e.g. fuel cost

adjustment approved by County on January 1, 2006, January 1, 2006 becomes base date for any next Contractor request for adjustment).

2.26.5 Fuel Cost Application Requirement. The Contractor must provide documentation including type of motor fuel and fuel invoices with price of the fuel used in providing services under this Contract, from the month bids were due and the month of the cost adjustment request, with any fuel cost adjustment application. The fuel cost adjustment application must be completed with all applicable data, and signed by the Contractor.

2.26.6 The fuel surcharge shall be based on the current quarterly index of the West Coast (PADD5) Diesel (On-Highway)-All Types or Reformulated Areas Gasoline compared to the previous quarterly index period as reported on the Energy Information Administration (EIA) website: <http://www.eia.doe.gov/>

2.26.7 The computation of the fuel surcharge amount shall be determined as follows:

2.26.7.1 The fuel cost component from Attachment A (Vendor Information) of the Contract with Maricopa County, multiplied by the percent of change indicated by the EIA report from the previous index period.

2.26.7.2 Upon agreement by the County to the surcharge, the County shall issue written approval of the change prior to any adjusted invoicing submitted for payment.

2.26.7.3 The surcharge shall be added as a separate line item to the invoice.

County currently holds ICPA's with numerous governmental entities throughout the State of Arizona. These agreements allow those entities, with the approval of the Contractor, to purchase their requirements under the terms and conditions of the County Contract. Your response will not be considered as an evaluation factor in awarding a contract.

3.23.1.4 have not within a 3-year period preceding this Contract had one or more public transaction (Federal, State or local) terminated for cause of default.

3.23.2 Should the Contractor not be able to provide this certification, an explanation as to why should be attached to the Contract.

- 3.23.3 The Contractor agrees to include, without modification, this clause in all lower tier covered transactions (i.e. transactions with subcontractors) and in all solicitations for lower tier covered transactions related to this Contract.

3.24 ALTERNATIVE DISPUTE RESOLUTION:

- 3.24.1 After the exhaustion of the administrative remedies provided in the Maricopa County Procurement Code, any contract dispute in this matter is subject to compulsory arbitration. Provided the parties participate in the arbitration in good faith, such arbitration is not binding and the parties are entitled to pursue the matter in state or federal court sitting in Maricopa County for a de novo determination on the law and facts. If the parties cannot agree on an arbitrator, each party will designate an arbitrator and those two arbitrators will agree on a third arbitrator. The three arbitrators will then serve as a panel to consider the arbitration. The parties will be equally responsible for the compensation for the arbitrator(s). The hearing, evidence, and procedure will be in accordance with Rule 74 of the Arizona Rules of Civil Procedure. Within ten (10) days of the completion of the hearing the arbitrator(s) shall:

3.24.1.1 Render a decision;

3.24.1.2 Notify the parties that the exhibits are available for retrieval; and

3.24.1.3 Notify the parties of the decision in writing (a letter to the parties or their counsel shall suffice).

- 3.24.2 Within ten (10) days of the notice of decision, either party may submit to the arbitrator(s) a proposed form of award or other final disposition, including any form of award for attorneys' fees and costs. Within five (5) days of receipt of the foregoing, the opposing party may file objections. Within ten (10) days of receipt of any objections, the arbitrator(s) shall pass upon the objections and prepare a signed award or other final disposition and mail copies to all parties or their counsel.

- 3.24.3 Any party which has appeared and participated in good faith in the arbitration proceedings may appeal from the award or other final disposition by filing an action in the state or federal court sitting in Maricopa County within twenty (20) days after date of the award or other final disposition. Unless such action is dismissed for failure to prosecute, such action will make the award or other final disposition of the arbitrator(s) a nullity.

3.25 VERIFICATION REGARDING COMPLIANCE WITH ARIZONA REVISED STATUTES §41-4401 AND FEDERAL IMMIGRATION LAWS AND REGULATIONS:

- 3.25.1 By entering into the Contract, the Contractor warrants compliance with the Immigration and Nationality Act (INA using e-verify) and all other federal immigration laws and regulations related to the immigration status of its employees and A.R.S. §23-214(A). The contractor shall obtain statements from its subcontractors certifying compliance and shall furnish the statements to the Procurement Officer upon request. These warranties shall remain in effect through the term of the Contract. The Contractor and its subcontractors shall also maintain Employment Eligibility Verification forms (I-9) as required by the Immigration Reform and Control Act of 1986, as amended from time to time, for all employees performing work under the Contract and verify employee compliance using the E-verify system and shall keep a record of the verification for the duration of the employee's employment or at least three years, whichever is longer. I-9 forms are available for download at USCIS.GOV.

- 3.25.2 The County retains the legal right to inspect contractor and subcontractor employee documents performing work under this Contract to verify compliance with paragraph 3.25.1 of this Section. Contractor and subcontractor shall be given reasonable notice of the County's intent to inspect and shall make the documents available at the time and date

specified. Should the County suspect or find that the Contractor or any of its subcontractors are not in compliance, the County will consider this a material breach of the contract and may pursue any and all remedies allowed by law, including, but not limited to: suspension of work, termination of the Contract for default, and suspension and/or debarment of the Contractor. All costs necessary to verify compliance are the responsibility of the Contractor.

3.26 VERIFICATION REGARDING COMPLIANCE WITH ARIZONA REVISED STATUTES §§35-391.06 AND 35-393.06 BUSINESS RELATIONS WITH SUDAN AND IRAN:

3.26.1 By entering into the Contract, the Contractor certifies it does not have scrutinized business operations in Sudan or Iran. The contractor shall obtain statements from its subcontractors certifying compliance and shall furnish the statements to the Procurement Officer upon request. These warranties shall remain in effect through the term of the Contract.

3.26.2 The County may request verification of compliance for any contractor or subcontractor performing work under the Contract. Should the County suspect or find that the Contractor or any of its subcontractors are not in compliance, the County may pursue any and all remedies allowed by law, including, but not limited to: suspension of work, termination of the Contract for default, and suspension and/or debarment of the Contractor. All costs necessary to verify compliance are the responsibility of the Contractor.

3.27 CONTRACTOR LICENSE REQUIREMENT:

3.27.1 The Respondent shall procure all permits, insurance, licenses and pay the charges and fees necessary and incidental to the lawful conduct of his/her business, and as necessary complete any required certification requirements, required by any and all governmental or non-governmental entities as mandated to maintain compliance with and in good standing for all permits and/or licenses. Contractor shall immediately notify both Office of Procurement Services and the using agency of any and all changes concerning permits, insurance or licenses.

3.27.2 Respondents furnishing finished products, materials or articles of merchandise that will require installation or attachment as part of the Contract, shall possess any licenses required. A Respondent is not relieved of its obligation to possess the required licenses by subcontracting of the labor portion of the Contract. Respondents are advised to contact the Arizona Registrar of Contractors, Chief of Licensing, at (602) 542-1525 to ascertain licensing requirements for a particular contract. Respondents shall identify which license(s), if any, the Registrar of Contractors requires for performance of the Contract.
